### DO YOU BELIEVE IN SUPERSTITIONS?

Superstitions are believed by thousands of people although they are thought as nonsense. Where does the word "superstition" come from? The word superstition is thought to come from two Latin words: "Super" and

It is known that the source of superstitions is ignorance. Do you know anyone who does not have a superstition? Most of the people, more or less, believe in them. Even though they deny superstitions, they still believe in them. They are superstitious. Unfortunately, we have hundreds of superstitions. Superstitions are seen all around the world. They change from culture to culture and they have a big influence in our lives. There are two types of superstitions: good luck superstitions and bad luck superstitions.

#### Bad Luck Superstitions

#### Black cat

Black cats are believed to be a supernatural omen. It is considered bad luck if a black cat crosses your path.

#### Broken mirror

An ancient myth was that the image in a mirror is our actual soul. A broken mirror represented the soul being astray from your body. To break the spell of misfortune, you must wait seven hours before picking up the broken pieces, and bury them outside in the moonlight.

#### Ladders

In the days before the gallows, people hung criminals from the top rung of a ladder and now their spirits are believed to linger underneath. Common folklore has thinks it to be bad luck to walk beneath an open ladder and pass through the triangle of evil ghosts and spirits.

## When do we celebrate New Year in the world ?

New Year's Day is the first day of the calendar year. It is celebrated as a holiday in almost every country in the world. It is a time of gaiety, sharing with friends, remembering the past, and hoping for good things in the future. In the United States, thousands of people jam Times Square in New York City to welcome the New Year at midnight. The transition between New Year's Eve and New Year's Day is an exciting one. In Times Square, people count down the seconds to welcome the new day as the New Year ball slowly descends and lights up the area.

Not all countries or cultures celebrate New Year on January 1st. The Chinese, Egyptian, Jewish, Roman, and Mohammedan years all have different start dates.

The Chinese New Year starts on a different day each year.

The Chinese Lunar Calendar is 2,640 years older than ours and never begins on January 1st, nor does it begin on the same date each year. It can begin any time between January 21st and February 18th, depending on the date of the New Moon in Aquarius. Each year is named for an animal. Every 12 years this cycle begins again. The Chinese say that the animal ruling the year you were born will influence your life. In 2009, Chinese New Year begins January 26th and will be the year of the Ox.

According to Chinese folklore, every person has personality traits that are the same as their animal birth sign. The different animals are :

The Rat The Ox The Tiger The Rabbit The Dragon The Snake The Horse The Sheep/Goat The Monkey The Rooster The Dog The Pig

Thousands of years ago, the Egyptians celebrated their New Year about the middle of June. That was the time when the Nile River usually overflowed.
